It's oh so late, are you asleep?
There's not a sound, so it's time for me to
dream.
The window pane, late city scenes, so far
away from where I was weaned.

There was a girl so long ago, all through
the park at night we would go
All just as late as it is now, two discontented,
a young one's vow

I'm here for you, only to adore you.
You mean everything to me.
And you're with me wherever I go, and I
miss you wherever I go.

Well, goodbye to old friends.
I watched you go.
From where I sit now, I still say hello.
all the memories gone by, those that I
couldn't call.
An eternal divide, the distance too long.

Dead as a mackeral.
Dead as a door.
Dead as a nail, but never a bore.

Always good for a laugh.
Always good for a shout.
Always good for a memory when the
lights are out.
