Darlene, sit down I need to talk to you
Then you do what you wanna do, just hear me through

Darlene, you don't need no other guy
When you gonna realize, how much I love you

Darlene, go in there and pack up all your dreams
I'll have all I'll ever need, if you go with me
Darlene, sugar I can give you everything
And I want you for my darling, Darlene

Darlene, we're both tired of just hanging around
Tired of dreaming in this sleepy town, the rest is
history

Darlene, go in there and pack up all your dreams
I'll have all I'll ever need, if you go with me
Darlene, sugar I can give you everything
And I want you for my darling, Darlene

So I need you for my darling, Darlene
And I want you for my darling, Darlene
