"All I Need"

You keep me alive
My heartbeat
You're the air that I breath
Your all that I want to see... your all I need

Your warm embrace makes my heart race
For the chance to chase your heartstrings
I hope I never fall asleep but if I do my dreams you'll
keep

You're the reason my heartbeats
You're the reason that I breath
Please let me sing this song to you
I want to be your hero

You're the reason my heartbeats
You're the reason that I breath
Please let me sing this song to you
I want to be your hero

I want to be your hero

Please let me be your hero

Your all I want to see
And all I know is... your all I need
