Time... ticks on
But I can't see 3 feet in front of me
I'm... in the dark
Not a place in the world that I'm supposed to be

(Pre chorus)
Except with you
Why can't you see
The world is counting on you and me
We... we are in love
No matter what I say you wont agree
You wont let this be...

(Chorus)
You ripped out this heart and you caste it into the sea
You said it was for the best for me to be free...
You ripped out this heart and you left me here to bleed
You ripped out this heart and you caste it into the sea

Life is a drain
When your not in the picture it's driving me insane
Walls... close in...
I can't find a reason to begin

(Pre chorus)
(Chorus)

(Bridge)
Seems that we let the world down... I'm convinced were
a perfect match
For now forget what the world wants I just want you
back
2x

(Chorus)
