Just put your key up inside that lock for me
Open up it's cold out here
I'll warm you up like the way your shower does
I'll kiss that spot behind your ear

(Pre-Chorus)

When were laying down everything I'm saying now
Will have you thanking me and begging me to stay the
night
Not even asking how
Not understanding why
Without you I just don't sleep right

(Chorus)

Can I come inside? (x4)
(I will always) come through for you baby.
Come through for you (x4)
I'll never let you down.

Lets take our time
We of age lets drink some wine
I'll kiss your neck you scrath my back
You tell me where you want it at
And you already know I stay real close to your area
code
But your areas cold
For it's made for adults
Imma love you down never let you go

(Pre-Chorus)

When were laying down everything I'm saying now
Will have you thanking me and begging me to stay the
night
Not even asking how
Not understanding why
Without you I just don't sleep right

(Go to Chorus)

Youve been thinking bout
Leaving out a key for me
You let me in and I can set you free

Ohhh girl, You my girl, girl
There's just one thing that I gotta know girl

(Chorus)
