Round round smoking weed with my foreign bitch  
Round round smoking weed with my foreign bitch,

My window down on grind to my my new shit  
Got my new bitch, got my got my new bitch  
I don't cop for no jades they say them hoes who freak  
Got the pound for no pussy fuck them hoes who freak  
That bitch is on deck

You know how to fuck our team  
Puffing but my boo, cups of... with my crew  
They... the sun, street falling that hurt  
Fat ass in my lab she pulling my shirt  
Cameras all in my belt, bring bringing my scalp  
High is all the things up, showing all for myself  
Real next to my mikes, things chatting my spikes  
Low right no chick, right behind my bike  
Barney pissing my sprite, Christmas grintching my  
switch  
Ballin on em all night, me and my bitch  
Call em hoes more miley, call em hoes more drink  
Sixty racks in my pocket, all them hoes going thing  
... dripping I'ma get tipsy, sipping I'ma get gripping  
Make the chopper get choppi, different I just get cocki  
No lip of mine no kiss poppin, sleeping I just get sluppi  
Haters in my set why they all in my mix  
Y'all can all get next on my deep bitch

Yep and it's time for guns to get lifted  
It's time for guns to get lifted  
It's time for guns to get lifted  
Border brick for my kicks, border brick for my click  
Couple trons for my kicks, one for my bitch  
They ain't searching no woman I just... that two pocks  
Ping pong in that grinding, feel like holla grand two  
pocket  
Gangsta party bust the big chocking  
I don't care what you're rolling as long as I'm smoking

Damn I love to see money but I show it  
Memory of keep money mental for my moment  
... for that I'm... watch yourself 'cause I'm mad  
Get the fuck at your bitch ass  
Paying won't be... I ain't tryin to get violent  
I wish tryin to get wasted  
Only time I'm smiling is when I get faced it  
Take the time taste it, David... basin  
Put the bag in that lab I get...  
Take the time taste it, base it  
Take the time taste it, David... basin  
Put the bag in that lab I get...
