It's Million, from the L dot to the A dot

It ain't really like me to stop what I'm doing
But when you come to town I just might have to do it
And I'm twice as smoother than a razor to your leg
yeah
Champagne pouring down your dress out in Vegas

Come on gamble on me coz I need you here
And I'm waitin to tell, see the cash here
I know a lot of girls who would kill to be you
But they don't appeal to me
So it's all rest in go for the all or leave with nothin'
Girl we about to get it in
I like it like that let me show you something
Come here

LA it down, LA it down
When your plane lands, I hope that you don't make
plans
LA it down, LA it down
Tied my schedule for you I got something special for
you
LA it down, LA it down
I'll get you out here with me, we'll be sliding through
the city
LA it down, LA it down
Got something special for you when you come to
California

Just got in we can chill for a little, let me tell you about
my new video
For a little
We gone make up, bake up breakfast at the griddle
But right about now I would kill for a little piece of that
pie
You so sweet girl tell me why
Wanna put whip cream between your thighs then
miracle whip my tongue inside

This is your vacation at our undisclosed

Location, coz all the LA girls hatin wanna come to fuck
our functional
I won't let 'em coz you'll leave tomorrow, but you'll be
back again well
'Till then I'll see you

LA it down, LA it down
When your plane lands, I hope that you don't make
plans
LA it down, LA it down
Tied my schedule for you I got something special for
you
LA it down, LA it down
I'll get you out here with me, we'll be sliding through
the city
LA it down, LA it down
Got something special for you when you come to
California

Got something special for you when you come to
California 2x

You can stay for whenever, for however long you
please
I got you with whatever for forever, come see this
routine
Full of traveling will have you coming back to me
Yeah coming back to me, I know

LA it down, LA it down
When your plane lands, I hope that you don't make
plans
LA it down, LA it down
Tied my schedule for you I got something special for
you
LA it down, LA it down
I'll get you out here with me, we'll be sliding through
the city
LA it down, LA it down
Got something special for you when you come to
California
