[Verse 1]

I love the way home feels and smells,
Been here since 12,
That's where I tripped,
That's where I fell,
I sleep by that tree and dreamt so well,
I never knew ah girl like you ah
And I sure won't meet another
But if you can't see
That this old street isn't big enough for me then

We live in different places imma just go, imma just go
[X2]

[Chorus]

You can stay in the small town
But imma breakout
I'd rather lose your love then have to stay and live in
doubt
Now I'm leaving home
For another place on a different street in a different
state
Now I'm leaving home cause you always say it's the
only way you'd wish I'd
Stay
Now I'm leaving home I'm leaving home

[Verse 2]

I can find a place that's well a good as well as you
But I need change and change needs me too
I can't come second but first of all it's not my fault
You may hate me tryna blame me your friends wont
hear my side at all
We'll split and tear bid farwell you told me I'm not
welcome here
We can laugh it off
Over coffee when I visit next year
It's just the

We've been in different places, imma just go, imma
just go [X2]

[Chorus]

You can stay in the small town
But imma breakout
I'd rather lose your love then have to stay and live in
doubt
Now I'm leaving home
For another place on a different street in a different
state
Now I'm leaving cause you always say it's the only way
you'd wish I'd stay
Now I'm leaving home I'm leaving home

Wacth me go [X2]

We've been in different places imma just go, imma just
go [X4]

[Chorus]

You can stay in the small town
But imma breakout
I'd rather lose your love then have to stay and live in
doubt
Now I'm leaving home
For another place on a different street in a different
state
Now I'm leaving home cause you always say it's the
only way you'd wish I'd
Stay
Now I'm leaving home, I'm leaving home

We've been in different places [X5]
