really wanna be with you baby
But I gotta do me first.
I know you like it when we loving,
And I know that it hurts.
And when it's all said and done at the end of the day
I've already had my fun
So there's nothing left to say.

I tried to keep this going as long as I could've
Didn't tell you things that I probably should've.
Things were going great since the moment that we
hooked up
Now your head is down and I need you to look up
Not cause I hate you, I really want to date you
And just know nobody can replace you.
Not trying break you I just wanna make you see the
things that I gotta do for me
Friends telling you to forget me now they got you
wishing
that you never met me
In a few years I'll be back if you let me and when
I'm on the road it's ok if you text me.
If you can't stand it feel like I planned this girl
your dead wrong yeah your dead wrong
I wanna be honest I'm just not on it but maybe one day
maybe one day.

I really wanna be with you baby
But I gotta do me first.
I know you like it when we loving,
And I know that it hurts.
And when it's all said and done at the end of the day
I've already had my fun
So there's nothing left to say.

It's been a while since we talked last isn't it crazy
how the fast times past?
Remember the nights when we would lay awake and
touch
on each other till the break of day
It's funny how things change I hope your doing great

I found your picture in my wallet from our first date
I hope you moved on but still remember me this is what
I done at least we got memories
Don't dwell on it just smile now you'll be fine you'll be
fine somehow

(X4) I really wanna be with you baby
But I gotta do me first.
I know you like it when we loving,
And I know that it hurts.
And when it's all said and done at the end of the day
I've already had my fun
So there's nothing left to say
