Without you

I walk through the Daze...
Day by day
I want to hide myself away-ey-ay-ey-ay

Wake up in the haze...
I crawl through the blaze
The scars of this life seem to stay-ey-ay-ey-ay

I just don't know what to do

(Chorus)
Without you
These wounds wont heal
I just can't describe how I feel
Without you
This life seems surreal
Sometimes I can't feel anything at all
Without you

The weather grows warm
But the snow it lingers
And my heart remains so coh-oo-oh-oo-old

All I can see
Is your face in my mind
Replayed as you walked a way-ey-ay-ey-ay

I just don't know what to do

(Chorus)

I don't know what to do
I don't know where to go
