### **"So You Wanna Be A Cop"**

Visit "[So You Wanna Be A Cop](#)" on MotoLyrics.com

[Stza]

So you wanna be a cop?  
so you wanna be on the top  
arrestin and shootin' all the kids on the block  
incarcerate the youth of the next generation  
and you get the high fives at the police station

[Ezra]

so you wanna wear blue  
and prey on the people  
go above the constitution where all men are equal  
beat down the poor, the working class core  
your a class trading motherfucking rich man's whore

[Stza]

'cuz it's a thin blue line between the love and the hate  
if you so choose to cross it you're a nazi for the state  
your injustice will crush us, the precious the few  
so you wanna be a killer for the red white and blue

[Ezra]

you're a bitch to the crown  
keep your own people down  
you've got nothing to protect  
but you're keeping the sect  
for your own damn brothers you got no respect  
and the killing won't stop when you become a cop  
\* the worlds getting madder and it ain't gonna stop  
it's an uphill battle all the way until we reach the top  
you got an answer in your holster  
and no question to kill  
you got a vision for society  
and it's your will

[Stza / Ezra]

even the summer sun can't make this situation light  
you've got the upper hand in a war  
when you take away our arms and our means to fight

[Stza]

so you wanna be a cop?  
you never stop with your wicked guns going pop  
after 41 shots your grinning in the donut shop  
your sickening behavior regulates this society  
and musters all the sickness & hatred inside of me

[Ezra]

so you wanna wear blue?  
well you're just the type  
got an chip on your shoulder and an itch for a gripe  
standing on a raft in an ocean of blood  
but you're doin the killing and causing the flood  
[Stza]  
how can we tolerate this mad abuse of power?  
you think a cop is never psycho till he stabs you in the  
shower  
choking v  
morning g  
L.O.C  
we never stop  
and your death'll be sweet if ya wanna be a cop  
[Ezra]  
they say the sea is green and the sky is blue  
and thats about right because we're below you  
you cop an extra attitude when you come down my  
block  
so you wanna be a cop?  
\* the worlds getting madder and it ain't gonna stop  
it's an uphill battle all the way until we reach the top  
you got an answer in your holster  
and no question to kill  
you got a vision for society  
and it's your will  
[Stza]  
even the summer sun can't make this situation light  
you've got the upper hand in a war  
when you take away our arms and our means to fight
