[Tim: i was looking for a riff that was classic speed metal.]  
[The song's About people WHO hypnotize you with their searing eyes]  
[and how impossible it is to see what?s behind them.]  
[vers:]you sear with your eyes on my skin  
I feel the pain allthough  
I'm so afraid but  
I still feed your flame  
[ref:]searing eyes  
searing eyes  
[vers:] your touch on my skin  
like a burning laser blade

destroying deadly lips  
praying it's not to late  
[ref:]searing eyes  
searing eyes  
searing eyes  
[vers:]you're playing your role  
with devotion so real  
that i can't feel  
your emotion
