Don't
Don't try to fool me
Don't incredulous and ask me why
You
You're not so far away
That I can't hear you when you cry

Don't think I can't see right through you
I had you figured from the start
Don't try to run away or hide
I won't hurt you baby
Cross my heart

I
I'm not the type of girl
Who gives up easily
Or runs away.
You
Better get used to it
Cos I ain't leaving you
I'm here to stay

Don't think I can't see right through you
I had you figured from the start
Don't try to run away or hide
I won't hurt you baby
Cross my heart

I won't hurt you baby
Cross my Heart
I won't hurt you baby
Cross my Heart
