Truth is blurry  
And distorted  
And my vision stained

In my mindless space  
Silent voices wake  
And speak no good or worth  
I feel no gravity

Another promise broke  
Another empty stroke  
Then I fall headfirst

Slowly I escape  
And I release the pain  
I feel the gravity  
And i scream  
But my mind can't eat  
When my soul won't sleep  
Won't you feed my swollen  
Appetite  
And I scream  
In my weightless frame  
Tell me who's to blame  
If the pictures lie

Million miles away  
From the real world  
Is where the fiction lays?

Tear another page  
Hope your doubts erase  
Read the words you're told  
I'm yelling yet unheard

Same old story  
Stone cold days  
Don't know what is real  
I'm blind until it hurts  
Guess it just don't matter when  
You're so helpless and the life

You're given a mess  
Give me one good reason  
Why I'm so mixed up i wish the damn fake bubble  
Would burst
