Forgive me my little flower princess  
For crushing your delicateness  
Forgive me, if you could forgive me

Forgive me my little flower princess  
For selfishness  
Forgive me, forgive me

Well i know there is no way to repay you  
Whatever it takes i will try to  
The rest of my life i will thank you (thank you, thank you)  
My little...  
If you'll forgive me my little flower princess  
Never too late unless you can't forgive...

Time is on our side  
Let's not waste another minute  
'cause i love you my little friend  
I really love you

Give me just one more chance  
And i'll show you -- take up the dance  
Where we left off  
The rest of our life is the...my little  
(i'm home)
