"Nuclear Winter"

The Earth is banished
Years passed
No mortal life exist
The radiation
Travels fast and
None could it resist
Ruined structures
Face the death
Clouds chase the light
Roads are empty
Sleeping towns
Salvation's out of sight

Nuclear Winter

Forgotten souls
Rest in peace
No god will make them live
Eternal Idol
Weapon is
The height that man achieved
Blinding strike
Of hellish storm
Child's helpless cry
The future's lost
As demon first
Condemned world to die

Nuclear Winter

Idea of Self-destruction
No savior, no mercy, no god
Time is exhausted for action
All nations are damned to rot
