I've got my mind, Set back in time,  
When I was young and hadn't sung my first meloâ€¦  
Gee I wish you'd been there.  
I try and comprehend where  
I'd be right nowâ€¦  
Had I known you all along.

My life was always so far from,  
Feeling right until last night.  
When I saw you for the first timeâ€¦

There is no wrongâ€¦  
No no you're my favorite song,  
And melody it's telling me "This is right were I belong."

My life was always so far from,  
Feeling right until last night.  
When I saw you for the first timeâ€¦

And I wish that I knew  
What you were up to  
As I lay here tonightâ€¦  
Do you know that I love you?  
And just how much I owe you?  
For everything you gave to meâ€¦
