On the road no looking back  
We're on our way and we're right on track  
A getaway under a hazy sky  
The setting sun is shinning in our eyes

Hold on tight-I'm driving fast  
The time has come for us to take a chance  
We are getting out before the overload  
The engine roars, it's ready to explode

Saving goodbye to the dark clouds of yesterday  
Making a future  
Come ride with me  
Come on believe in me

Chase the moring, find the dream  
Racing at a speed that you won't believe  
Feel the thrill of the wind in your hair  
I feel the energy now you are here with me  
Chase the morning, seize the dream  
Push it to the limit, we are running free  
Feel the thrill of the wind in your hair  
We'll see the dawn again  
Ride through the night, speed of light

Pusles race, the tension's high  
Ride through the dust across the great divide  
Your body heat, as hot as burning chrome  
Hey, don't you know, we're in the danger zone

I'ts time to start taking hold of our destiny  
Facing it all  
Come and ride with me  
Come on, believe in me

Chase the moring, find the dream  
Racing at a speed that you won't believe  
Feel the thrill of the wind in your hair  
I feel the energy now you are here with me  
Chase the morning, seize the dream  
Push it to the limit, we are running free

Feel the thrill of the wind in your hair  
We'll see the dawn again  
Ride through the night, speed of light

On the road - no looking back  
We're on our way and we are right on track  
A getaway under a hazy sky  
The morning sun shinning in our eyes

It's time to start taking hold of our destiny  
Facing it all  
Come and ride with me  
Come on, believe in me

Chase the morning, find the dream  
Racing at a speed that you won't believe  
Feel the thrill of the wind in your hair  
I feel the energy now you are here with me  
Chase the morning, seize the dream  
Push it to the limit, we are running free  
Feel the thrill of the wind in your hair  
Now you are here with me, I am complete  
Won't you

Chase the morning, find the dream  
Racing at a speed that you won't believe  
Chase the morning, seize the dream  
Push it to the limit we are running free  
Chase the morning, find the dream  
Racing at a speed that you won't believe  
Chase the morning, seize the dream  
Push it to the limit we are running free
