Yakeru you ni tagiru natsu o ichido de ii kara kimi ni
tsutaete
netsu ni ukare useru taiyou omoi o nadeagete yo

There's a burning, boiling summer inside of me. I want
you to feel at least one degree of it.
Oh, the fading sun, surrounded in flames, please light
my fire stronger!

kinou no nurui petto botoru kyappu made chigau shi
sutemi ga teranagashikonde karada o damaraseru

Even the old plastic bottles we used to use have
different caps from the ones today.
The old bottles are discarded, just as I was.

ugokidasu kimochi o gase da to ka iwanai de

Please don't tell me my intense feelings for you are a
waste of time.

kuramu shisen tagiru natsu o daitan suteki na kimi ni
ubaware
nodo no oku de kuzureteyuku kotoba o uketomete yo

In this burning, hot summer, my eyes are locked on
your awesome beauty.
My throat is so dry I can hardly speak, but please
understand what I'm trying to tell you!

darui dake de nantomo nai joubusa ga kitsui ne
shihan de sumasu itamidome de derikeeto ni yotteru

It's tough being "healthy" of body but not of spirit.
I intoxicate my heart in order to distract myself from
the pain I'm feeling.

akirameta hitomi de oodaa o kaenai de

Please don't grow tired of me and walk away.

kimi no tottemo iitokoro o sagashiteageru kara ji tto
shitete
yureru ochiru mottekareru setsunaku hatan shisou

I'll find the words to describe how much you mean to
me, so wait patiently.
I tremble, I fall, I'm hunted down. I feel like the sorrow
is going to destroy me.

afuresou na sono shizuku de mita koto nai hodo
tokashitai dake
fukaku tsunagu ase o sasou omowaku ni yojiresou

At the pool which was almost overflowing, I saw
something I wanted to melt.
I invite the heat to come to me; I feel as though my
intentions are becoming twisted

Yakeru you ni tagiru natsu o ichido de ii kara kimi ni
tsutaete
netsu ni ukare useru taiyou omoi o nadeagete yo

There's a burning, boiling summer inside of me. I want
you to feel at least one degree of it.
Oh, the fading sun, surrounded in flames, please light
my fire stronger!
