

T.n.t.**"All The Way To The Sun"**Visit "[All The Way To The Sun](#)" on MotoLyrics.com

Rise up for the new day
Let's bring it on
Grab your brothers, your sisters, your mothers
Let's fly to the sun

There's no pain like the silence you hear
When there's no one there
So get out, join the party
Take the power from the love that we share

Chorus:
Here we go - all together now
Here we go - are you ready now?
Here we go all the way to the sun

Rise up God's sake
Don't wait for me
For too long they've been sucking away
At the air we breath

We been living on a bloody rainbow
In a dirty sky
To get a life we got to get together
Rock the world right between the eyes

Chorus
