It feels like a Saturday night tonight,  
Not like a Monday night,  
Not like you're out of sight  
We've both been travellin' way too long  
But our friendship's strong, We know that we belong  
We gotta bring out a cheer...

Two friends and a bottle of wine  
Both feeling fine, a bottle of wine  
Two friends and a bottle of wine  
Both feeling fine, a bottle of wine  
We gotta drink it all up!

We are discussing the cloudy past  
What couldn't really last  
But our friendship has  
So, we are finally here today, we've got a lot to say,  
Let's bring it out, so hey! We gotta drink it all up!
