"Destiny"

Visit "[Destiny](#)" on MotoLyrics.com

Endless are the dream we leave behind
Open the doorway, look inside your
mind
Follow on the path to the unknown
Searching for answers here behind the
conscious lies

Tonight we run, tonight we live in
harmony
Tonight we fly until we find our destiny

Stars shine as the fantasy's revealed
You are the bringer of all that's been
concealed
Two hearts colliding in your soul
I am your pilot but you are in control

Tonight we run, tonight we live in
harmony
Tonight we fly until we find our destiny
Tonight we run, tonight we live in
harmony
Tonight we fly until we find our destiny

Tonight we run, tonight we live in
harmony
Tonight we fly until we find our destiny
Tonight we run, tonight we live in
harmony
Tonight we fly until we find our destiny
Tonight we fly again
