The only way out is through  
Said a wise man and I think it's true  
No, I know it's true  
But your heart is heavy  
All you want to do is roll away, take a ride  
Get into your car and drive

Chorus:  
Take it out on the highway  
Get yourself a new life

And your wheels are spinning  
Even faster now through wind and rain  
Oh, you're changing lanes  
And you're really nowhere  
That you want to be but you don't care, no where's fine  
Driving is your piece of mind

Chorus:  
Take it out on the highway  
Get yourself a new life  
Take a chance on the freeway  
Every road has it's price

Then somehow you find yourself  
Right back where you started yesterday  
Even far away  
And you can't escape it  
But you'll still be chasing butterflies on your own  
Until the wind drives you back home

Chorus
