Met a girl from south buenos aires  
With a smile like the warm Spanish sun  
And we danced in the arms of san pedro  
Went as far as our horses could run  
In her dark chocolate eyes I was captured  
In the full moon my soul couldn't hide  
As we drank her homemade sangria  
Sevillanas played on through the night  
She's still loving, me in my fantasy  
And if we're meant to be I just might make it back

Y extraño a mi dulce senorita  
(And I still miss my sweet senorita)  
But I fear that her heart let me go  
And that somebody new has embraced her  
If I stay here I never will know

She's still lovin, me in my fantasy  
And if we're meant to be I just might make it back  
She's still lovin, me in my crazy dream  
And if we're meant to be I just might make it back

She's still lovin, me in my fantasy  
And if we're meant to be I just might make it back  
She's still lovin, me in my crazy dream  
And if we're meant to be I just might make it back

You know I will now, yeah you know I will  
Oh if you want me to I'll be  
With you  
Make this dream come true  
Woah... yeah... oh yeah  
Cause if we're meant to be  
That's where I'm gonna be  
All I wanna do yeah, yeah  
Come right back to you  
Back to you
