You know who I really am, don't you girl  
Even I don't understand me  
You've seen darker days than I've ever known  
Still you shine brighter than anyone

Stay in this dream forever  
Hoping that tomorrow never comes  
To take this life away from me

You said that you're not going anywhere  
And I believe you when you say it  
BuT sometimes I forget you're not like the rest  
And I go down into my weakness

Stay in this dream forever  
Hoping that tomorrow never comes  
To take this life away from me  
Couldn't be any better  
Maybe if tomorrow never comes  
Everything ends perfectly

Stay in this dream forever  
Hoping that tomorrow never comes  
To take this life away from me  
Couldn't be any better  
Maybe if tomorrow never comes  
Everything ends perfectly
