"Ready To Fly"

Visit "[Ready To Fly](#)" on MotoLyrics.com

You talk about freedom
But you lived your life like a bird in a cage
Couldn't get away

And you're still the only
The only one that you're thinking about
Don't you feel like reaching out

Sometimes I'm just like you
Don't have a single clue
But then I look again
And see all the lives that I want to be in

Chorus:
I think that I've had enough time on the ground
And I'm ready to fly
Been stuck in a bottle of fear and I almost died
Just give me my wings and take all of these things
Cause I'm ready to fly
This world can be a lonely place for you and I

I don't even know you
You're painting a picture that I've never seen
But I remember what has been

But I'm ok with this
The past goodbye I've kissed
I've learned so much from you
Mostly I've learned what not to do

Chorus

Sometimes I'm just like you
Don't have a single clue
But then I look again
And see all the life that I want to be in

Chorus
