### "On Fire"

Visit "[On Fire](#)" on [MotoLyrics.com](http://MotoLyrics.com)

World, stop for us tonight  
Time to make it right  
Take it down, put your hands up  
Hey, everybody move  
Music makes you groove  
Baby rock your body to the beat now

World, stop for us tonight  
Let go of all for your pride  
Feel the love, feel the heat, yeah  
Hey, let yourself let go  
I'll make you feel the flow  
Me and you and the dance-floor

We're on fire  
We're on fire

Come up the floor  
Let your body do the show  
Make them move, feel the groove  
Na na, baby here we go  
Do it one by one  
Do it two by two  
Spinning round and round  
I'm addicted to the sound  
Come up the floor  
Let your body do the show  
Make them move, feel the groove  
Na na, baby here we go  
Do it one by one  
Do it two by two  
Spinning round and round  
I'm addicted to the sound  
Cause love takes us higher  
And we burn like fire  
We burn...

World, stop for us tonight  
Time to make it right  
Take it down, put your hands up  
Hey, everybody move

Music makes you groove  
Baby rock your body to the beat now

Fire, fire, fire  
Fire, fire, fire  
We're on fire  
Fire, fire, fire  
We're on fire

Come up the floor  
Let your body do the show  
Make them move, feel the groove  
Na na, baby here we go  
Do it one by one  
Do it two by two  
Spinning round and round  
I'm addicted to the sound  
Come up the floor  
Let your body do the show  
Make them move, feel the groove  
Na na, baby here we go  
Do it one by one  
Do it two by two  
Spinning round and round  
I'm addicted to the sound  
Cause love takes us higher  
And we burn like fire  
Cause love takes us higher  
And we burn like fire  
We burn...
