So, they've broken your wings
Fine, you don't want 'em
They, will challenge your dreams
Fight, it will destroy you
They, are tearing you down
Pride, give it all up

I will get inside you
Fill the space between us

Trust, has just been betrayed
Fine, they don't deserve it
Lost, they led you away
Find, you're home already

I will get inside you
Fill the space between us
Feel the love around you
Fill the space between us

You don't belong
You don't belong here
Open in your mind
Take a deep breath
Be the receiver

I will get inside you

I will get inside you
Fill the space between us
Feel the love around you
Fill the space between us
