Think of me like I think about you  
Give me a sign, show me you care  
Am I so far away in your thoughts not there  
Forget what you told me it's what didn't get said  
It's not much to ask come down off your cloud  
And with your feet on the ground say something out  
loud  
Without Love ... I mean nothing to you.  
Without Love ... broken in two.  
Without Love ... give me some value, some worth.  
Without Love ... no life left on Earth ...  
Blame it on work, buy me some flowers  
Empty gestures wile away the hours  
Promises promises sealed with a kiss  
Please acknowledge it's me that you miss  
No message recieved no excuses believed, you hurt  
me so much  
I'll never recover  
Takes time to discover a love like no other  
CHORUS  
Without Love ... I mean nothing to you.  
Without Love ... Without Love ... I mean nothing to you  
Without Love ...  
I mean nothing ... I mean nothing ... I mean nothing  
nothing to you ...  
And I'm broken ... I'm broken broken in two ...  
I mean nothing ...
