Empty arms torn apart
Angel walked out and left me with a broken heart
Everyday I take the blame
I let my whole world slip away

I had an angel
That time was everything to me
In the beginning we were, we were forever
Clouds in my future
Now all alone I'm in the rain
The pain, it whispers my name

Empty arms torn apart
Angel walked out and left me with a broken heart
Everyday I take the blame
I let my whole world slip away

Never so lonely, alone I'm locked down
In this cage the key
She took it away from me
Someone release me
I've done my time now set me free
I need someone to help me
Empty arms torn apart
Angel walked out and left me with a broken heart
Everyday I take the blame
I let my whole world slip away

I remember when
We were lost back then
Lost in time on our own
I'll see your face forever
Your eyes, Your touch I'll never
I'll Never feel again

Empty arms torn apart
Angel walked out and left me with a broken heart
Everyday I take the blame
I let my whole world slip away

Empty arms torn apart
Angel walked out and left me with a broken heart

Everyday I take the blame
I let my whole world slip away
