But love is incest and it's only for a fuck
To the guys provided free
Peace time war time country's in vein
All die for this land some over seas
I live for the summons serve my country
Army, Navy, Air Force or jail
To the guys provided for free
Peace time war time country's in vein
But that's the American way what it is to be free
If that's what they call freedom it's not for me
Suck my motherfuckin' dick
