Must be the tight clothes or the lack thereof
Must be the way they spin a bottle of vodka
Must be the lights dark and dim
Must be the way they lean on inâ€¦

Tell me why do I always fall in love with the bartender
Some kind of charm coming from behind the bar is that
the bartender

Must be the small talk I come back for
Must be the comfort that comes with every pour
Must be the way I feel when called upon
A crowd of drinkers vying for their attention..

Am I a sucker for a pretty face?
That gets prettier and prettier with every taste
Why do I feel you know me so well?
At 2 am, I guess time will tell

Why do I always fall in love with the bartender
Some kind of charm coming from behind the bar is that
the bartender

Add liquor to the mixture I am under your spell
Last call for alcohol did you hear the bell?
Our rendezvous is through you hand me my tab
I asked you call me and you called me a cab!

Why do I always
Why do I always
Oh why do I always
Why do I always fall in love with the bartender?
Some kind of charm coming from behind the bar is that
the bartender
With every sip, the bigger gets the tip, bartender
Must be the charm
Must be the charm
Coming from my bartender
