Last night I stared at the sky
The stars were no where to be seen
But the hope of tomorrow night
Gave me the power to dream

But its taking some getting used to
Some getting used to
It's been too long since I've seen you
I've been doing what I gotta do

Everyday I tell my heart
Someone is coming for you
And I hope to god, that my words tell my heart it's true
But its taking some getting used to
Some getting used to
Its been too long since I've seen you
I've been doing what I gotta do

I wanna know the further I go, they is some thing out
there for me
I will find my place to show me who I'm made to be
Who I'm made to be

Its taking some getting used to
Some getting used to
Its been too long since I've seen you
I've been doing what I gotta do
