Give me something to Dance to
Give me something to dance to all night
Give me something to dance to
Cause if I'm dancing I'm alright

Something's working me over
A groove is in my blood
Took me to get here
Just to set it off
All I want is to take my worries
Out on the floor tonight
I had a day that went so wrong
Now I'm gonna make it right (when I say)

Give me something to dance to all night
Give me something to dance to
Cause if I'm dancing I'm alright

I can't shake this feeling
It's holding me captive
It's time to give myself back all the energy I give
In the worst of times I know this tunnel has a light
I'm gonna dance my way to it even if, it takes me all
night.

Give me something to dance to all night
Give me something to dance to
Cause if I'm dancing I'm alright

All I want is to take my worries
Out on the floor tonight
I had a day that went so wrong
Now I'm gonna make it right (when I say)

Give me something to dance to all night
Give me something to dance to
Cause if I'm dancing I'm alright
