Every time I come here,
its always the same,

My life in this house is one big misunderstanding,
Who am I to you?
Cause I'm feeling lost,
Never getting any closer,
I... I have no luck,
I have no luck...

Let's throw away the past,
I no longer want to revisit that,
Lets throw away the past,
It's not helping either of us,
Focus on what is and not what was,

I have learned to disappear when conversations end,
Never doing anymore than answering,
And I want to know why? Why?,
We've got nothing left to say ,
For once I want to talk about tomorrow,
Not yesterday,
yesterdayâ€¦!

Let's throw away the past,
I no longer want to revisit that,
Lets throw away the past,
It's not helping either of us,
Focus on what is and not what was,

It's not easy
I don't know why I thought it would be,
Why I thought it would beâ€¦!â€¦!(X3)

Let's throw away the past,
I no longer want to revisit that,
Lets throw away the past,
It's not helping either of us,
Focus on what is and not what was.
