"What I Can Give"

Visit "[What I Can Give](#)" on MotoLyrics.com

I wish I had a song to sing for you
To gather the strength that each day must take to go
through what you do
What you do

So many things, we take for granted too easily
One day it hits reminds us the courage it takes not to
quit
Not to quit

I could offer ten thousand tears, a field of white
daffodils
With these things what could you do?

But this is what I can give to you
This is what I can give to you
May not be much, you've been through enough
Just know it's me, you have touched

I wish I had a song to sing for you
To gather the strength that each day must take to go
through what you do
What you do.
