I find the worst in you  
Because I'm scared  
That since I've seen the best of you  
I'd better be prepared

I've got one foot on the step  
I've got one hand on the rail  
I've got an anchor around my mind  
And my heart wants to set sail

I know we're doing fine  
I do this all the time, I tend to

Worry about nothing  
Worry about nothing  
Worry about nothing  
Because of you

You're not looking around every corner  
You're not waiting for a chance to flee  
And I've waited my whole life to find  
Someone who wants me unconditionally

I know we're doing fine  
I do this all the time, I tend to (Chorus)  
I know we're doing fine  
I do this all the time, I tend to

(Key change to Chorus)
