This silence is killing me, cause I got a secret,
a secret to tell. Some things are better left
unsaid, but I never learned my lesson, all that
well. So who's laughing now? Yeah who's laughing
now? I'm looking for love in all the wrong
places. Wrap your promises around my finger so
I dare not forget.

Promise you'll bury me, underneath my
burden and my misery. Yeah, you said you'd
bury me so we can hide the body easily.

My dreams get darker with each coming
night. So I made a pact with the killing
moon, to shine on towns that I'll be
passing through cause I've dreamt of a
killer's silhouette danced across my
bedrooms walls, and I fear that when I
awake I'll be nothing more than all alone.

And I'll be your alibi, and we can shake these
city streets up tonight. With our hands
to the sky, watch as it swallows you whole.
