"The bop"

Well, everybody's boppin' and a-dancin' around
We got a whole lotta rhythm and a brand new sound
Whole place jumpin' and they can't stop
A brand new dance code, they call it The Bop

It's hillbilly music and they gave it a beat
Everybody's dancin' and the rhythm is sweet
Whole place jumpin' and the sweat gonna drop
Can't stop dancing 'cause they're doin' The Bop

Well, you dance a little here and you dance a little
there
Shake it up baby, or they'll think you're square
Turn up the music, turn down the lights
Everybody's gonna do The Bop tonight

It's hillbilly music and they gave it a beat
Everybody's dancin' and the rhythm is sweet
Whole place jumpin' and the sweat gonna drop
Can't stop dancing 'cause they're doin' The Bop

Well, you dance a little here and you dance a little
there
Shake it up baby, or they'll think you're square
Turn up the music, turn down the lights
Everybody's gonna do The Bop tonight
