Feel you're different glowing like a spark I felt before.  
You're like a wide-eyed wanderer  
How could I want you more?

[ooh ooh] This is the start of something new and  
different

[ooh ooh] I'm feeling everything I should have felt  
before

Open canvas, stroke you with the paint of innocence.  
You see the whole sky unfold, and share the view  
without the tint.

[ooh ooh] This is the start of something new and  
different

[ooh ooh] I'm seeing everything I should have seen  
before

I've been dreaming of love. Where did you go?

There's no time to stop now  
You gotta let it all go

I've been dreaming of love  
Where is your...

Heart wide open  
Flowing through the hole of vivid dreams  
You can feel the destination, but it's the voyage that  
you seek.

[ooh ooh] This is the start of something new and  
different

[ooh ooh] I'm chasin everything I should have chased  
before

Before...

I've been dreaming of love  
Where did you go?  
In this feeling of love

Where did you go?

We gotta change  
The souls arise, no ground applies  
And I want in.

I've been dreaming in love.
