This could be the last time I ever say I'm sorry
and this could be the last time I ever let you down.
The first time was the last time I was sorry.
You know that I would never let you down.
Wo This could be the last time I ever let you down.
Wo This could be the Last Time.
This could be the last time!

This could be the last time I ever say I'm sorry
and this could be the last time I ever let you down.
The first time was the last time I was sorry.
You know that I would never let you down.
Wo This could be the last time I ever let you down.
Wo This could be the Last Time.
This could be the last time!

Wo
I'm so lost
I got so lost
so lost
