Trample me down
To the ground
Where you cannot see

Lock me away
Lock me away
Throw away the key

I am the one that you feel most threatend by
I am the one that you feel most threatend by

You talk yourself up
Talk yourself up
Look at you

You're just like them all
Just like them all
You're not brand new

I am the one that you feel most threatend by
I am the one that you feel most threatend by

I am the one
Who will make
Your though process bleed

Planted in your mind
I grow
Just like a seed

I am the one that you feel most threatend by
I am the one that you feel most threatend by

I am the one that you feel most threatend by
I am the one that you feel most threatend by
