So i'm from langdon part, northeast dc part,
The north-east dc part and we jive be coming up with
stuff all the time young,
Different terms and stuff like "put me in the pocket"
That's when somebody size you, you know what i'm
saying,
You see a girl that's tight or something (she put you in
the pocket),
Yeah when you rockin bama, stylin on them and stuff
young,

I be jive out there in the streets cruising
You might of see me out there doing anything but
losing
If you fake imma put you out there
You might here some oohin (ooh) but i don't wanna
take it there
So you know i was all on point as usual
I can tell cause people usually point and say that's
crucial
Even though that's force i aint never wear fubu
'cause i aint no bama and the girls are no a boo-you
But if its you do you, i don't like to copy, i be on
moschino, versace and gucci
They be lookin sloppy wondering why they aint got no
groupies (they aint got no groupies)
And i don't just rap for a hobby i do it for the groupies
(psych, psych)
I do it just to uhh.... put you in the pocket, so put me in
the pocket

[chorus:]

Put me in the pocket (pocket)
Put me in the pocket (pocket)
Put me in the pocket
Put me in the pocket (pocket)
Put me in the pocket (pocket)
Put me in the pocket
Put me in the pocket (pocket)
Put me in the pocket (pocket)
Put me in the pocket

Put me in the pocket (pocket)
Put me in the pocket (pocket)
Put me in the pocket

I was on the phone with this girl that was extra girly
She was being extra and tried to carry me
So i had to next her she got problems with self-esteem
So that might affect her
My moms give me lectures, i been out of school for like
10 semesters
I got my diplomas to fall back on her
Soon as you turn around i'm right up on ya
If you aint got a heart i hope you aint a organ donor
If she got a level head i'm right up on her (on her, on
her)
Speakin of head imma go ahead and stay ahead of
them all
You can find benet runway and boutiques not the mall
The name is tabiabue and all i can say is

[chorus:]

Put me in the pocket (pocket)
Put me in the pocket (pocket)
Put me in the pocket
Put me in the pocket (pocket)
Put me in the pocket (pocket)
Put me in the pocket
Put me in the pocket (pocket)
Put me in the pocket (pocket)
Put me in the pocket
Put me in the pocket (pocket)
Put me in the pocket (pocket)
Put me in the pocket
