

## Free Willy 2

### "What Will It Take"

Visit "[What Will It Take](#)" on [MotoLyrics.com](http://MotoLyrics.com)

Just another song  
Of trying to heal our world  
At times I think that's all  
That this would be  
But its words remain strong  
Gotta do all I can do  
'Cause I know My God  
Hasn't given up for me  
And the children  
(Born so innocent and free)  
It's the gift of life  
Still the greatest gift of all  
And the Homeless  
(With no clothes or food to eat)  
We've got to do much better  
'Cause we're all in this together  
What will it take to make  
The world a better place  
You and I know that we  
Have got to take  
What will it take  
For us to make that change  
What will it take to make  
The world a better place  
You and I know that we  
Have got to take  
What will it take for you  
To make that change

Just surrender to our love  
And care for our own world  
I think that's just about all that we'll need  
We gotta stay strong  
Gotta give all we can give  
And a better place we'll leave  
In guarantee  
Sing...

What will it take  
We've gotta change  
Let's make that change

For the children  
(Born so innocent and free)  
'Cause the gift of life  
Is the greatest gift of all  
And the Homeless  
(With no clothes or food to eat)  
If we all just pull together  
Then we'll leave in peace forever

What will it take to make  
The world a better place  
You and I know that we  
Have got to take  
What will it take  
For us to make that change  
What will it take to make  
The world a better place  
You and I know that we  
Have got to take  
What will it take for you  
To make that change
