Mad, it's so wild, it's so sick, it's out of sight'
Man has dared to play about with life
Tell me what goes on in labs and surgeries
New test tube mothers of a cloned cell new born child

Moral destruction and minds so full of sin
Weird ideas that warp mans civil rights
Orwells intentions became reality
How could that happen to humanity

Superphysical resurrection,
Frozen back 1984
To be born in a new dimension
What lies ahead is to be, be explored

Mad it's so wild, it's so sick, it's out of sight
Man has dared to play about with life
Just take your pick, boy or girl intelligent
Defrost on time see you 2009

Superphysical resurrection,
Frozen back 1984
To be born in a new dimension
What lies ahead is to be, be explored
