I wont let you let me down
I wont let you let me down
Don?t gimme no lip
Or breathe a sound
I wont let you let me down

You couldn?t sell me out
Not this time around
All the tales you tell
You cant hide from this hell

I wont let the sun burn out
I wont let that truck run me down
Don?t gimme no lip
Or breathe a sound
I wont let you let me down

All you planned was grin
Tried to dig right in
You couldn?t sell me out
Not this time around
All the tales you tell
You cant hide from this hell
