I know you're hiding Rcause I can feel you breathing
Hear your heart beat
I know you're hiding Rcause I can feel your fear against
my skin
I know you're lost and lonely
I know you're scared and tired
I know you're falling
But I will catch you
I will catch you keep you
You know Im close Rcause you can feel me breathin
Sense my heart beat
You know Im here Rcause you are paralysed, have lost
your way
Now, today, forever never let you go
Today, I'll never ever let you go'
Something else is going on, still I don't care
First you're here and then your gone, still I don't care
When you think you're lost forever, I will find you
Even though you're hidden from me I will find you
