Good god yeh

You'd go to battle
Without an army
Your imperfect shows right
Through

Put forth aggression
Without compassions
Bad intention follows you

I wont be tellin' you
Im not bitter
I wont be tellin' you
Im not bitter

Don't lie to me
Don't cross that river
Nobody made you play that
Game
You've got yer guard up
Shove words in my mouth
You think the earth moves just
For you

Im no better than you
Im not denying
Im no better than you
Im not telling
Im no better
