(Brewster-Neeson-Brewster)  
(Coordination -- can more than one thousand people coordinate at the same time?)  
Didn't ask to be here, taking what they're putting me through  
you can moan and cry and wonder why but there's something else  
you gotta do  
Gotta live it up  
baby live it up  
yeah live it up  
Nobody owes nothing, what you get is up to you  
don't say you've done (you know) no dancing 'round  
you got something else you gotta do  
Gotta live it up  
baby live it up  
yeah live it up  
gotta live it up baby  
gotta live it up baby  
gotta live it up
