(Steve Marriott)

There she is again, steppin' out of her limousine  
lookin' like the cover on a twenty dollar magazine  
she's got it where you find it, if y' know what I mean  
She's a natural born woman

There she is again, watch her stop the main street in its  
tracks

lookin' like a creole queen, hair hangin' down her back  
I said don't look too long boy, she'll make y'r glasses  
crack

She's a natural born woman

Lookin' out my backdoor wandering which way to go  
thinkin' 'bout the city and a rock n roll show  
come on sweet-eyed Suzie together we can lose control  
She's a natural born woman
